

Configuration Wildix PBX

1. Aller dans le menu “paramètres”-“pbx”-“Historique des appels et chat”
Ici dans l’onglet “CDRCSV” activer la fonction et donner le nom du fichier

The screenshot shows the Wildix PBX configuration interface. At the top, there is a dark blue header with the Wildix logo and several icons. Below the header, there is a navigation bar with tabs: Paramètres, CDR MSSQL, CDR MySQL, CDR Sqlite, and CDR CSV. The CDR CSV tab is selected. In the main area, there is a section for CDR CSV settings. It includes a checkbox labeled "Activé" which is checked, a dropdown menu for "Parcours de sauvetage" set to "CDR CSV", and a text input field for "nom du fichier" containing "cdrwildix". A "Sauvegarder" button is located at the bottom right.

Sauvegarder

2. Aller dans le menu “paramètres”-“système”-“sauvegardes”

The screenshot shows the Wildix PBX configuration interface with the "Sauvegarde" (Backup) menu open. The menu is located under "Paramètres" > "Système" > "Sauvegarde". The menu items are: Réseau, HTTP client proxy, Serveur LDAP/Radius, Serveur DHCP, Client SMTP, FAX/SMS serveur, Serveur SNMP, Sauvegarde (highlighted), and Serveur NTP. The main area shows a table of users and a table of backup settings. The users table has columns: Nom, Login, and a checkbox. The backup settings table has columns: Mobilité, Dialplan, Dialplan ..., Profil, and Departemen....

Première configuration de Blue's Enterprise 4

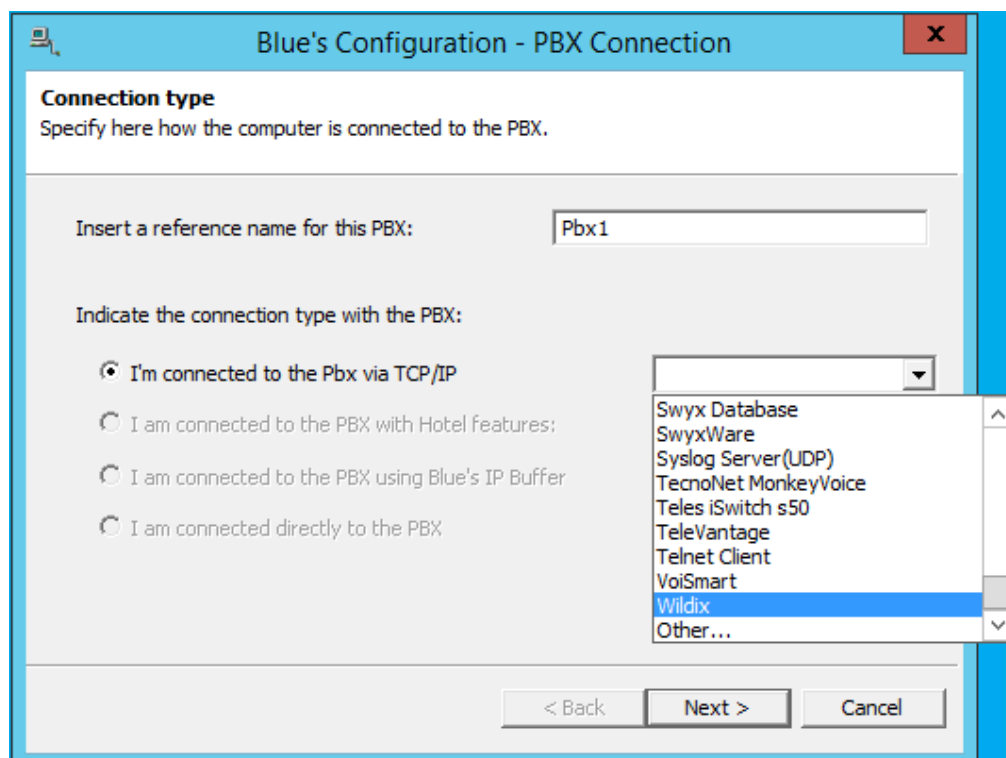

1. Lancer la configuration de Blues Enterprise 4 à partir des Applications > Imagicle Configure Blue's Enterprise 4.

2. Configuration de la connexion au PBX, cliquer sur [Next >]

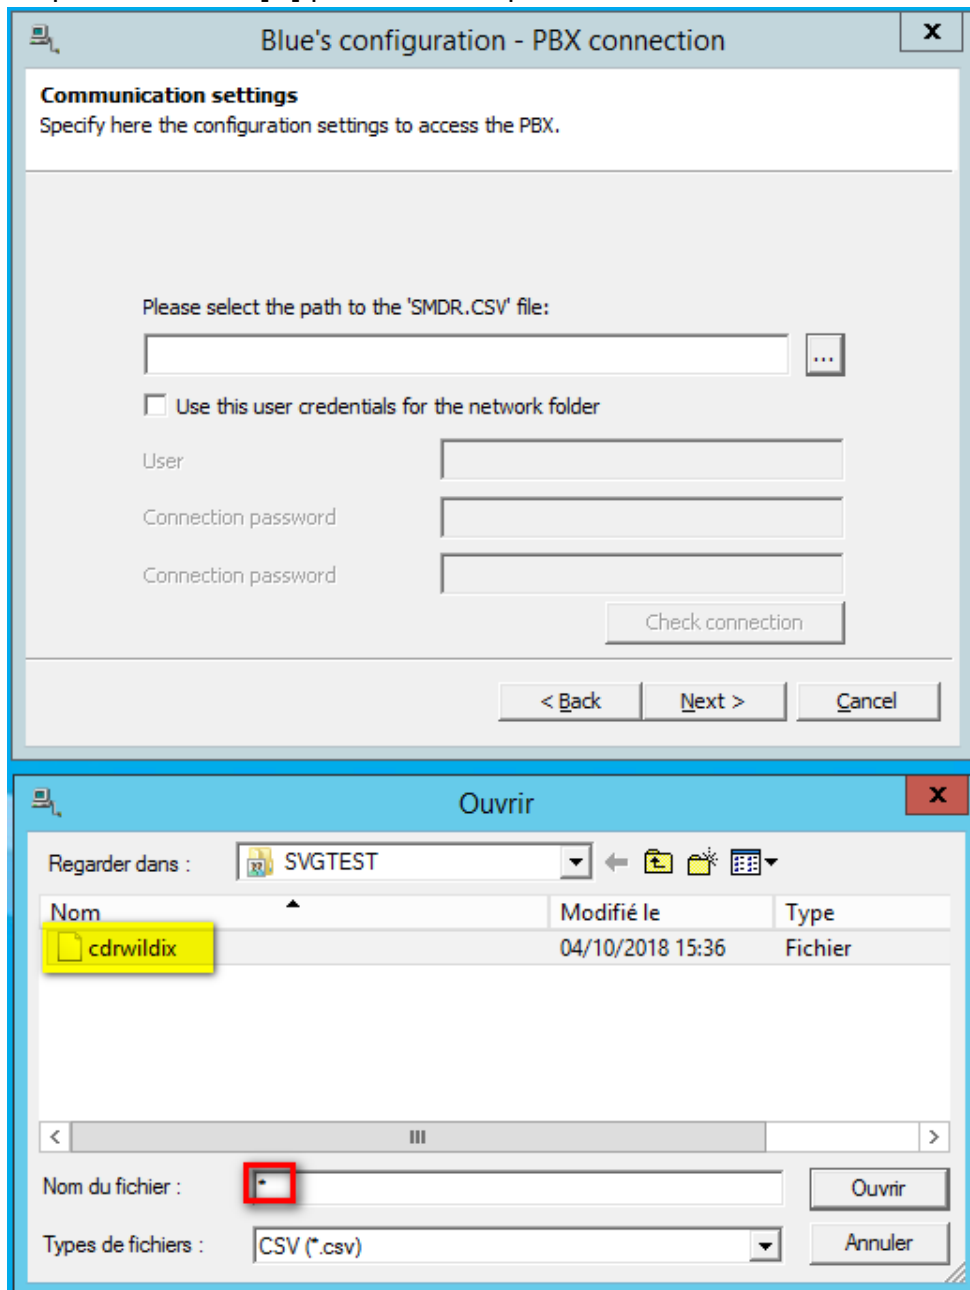

3. Choisir : I'm connected to the PBX via TCP/IP > Wildix

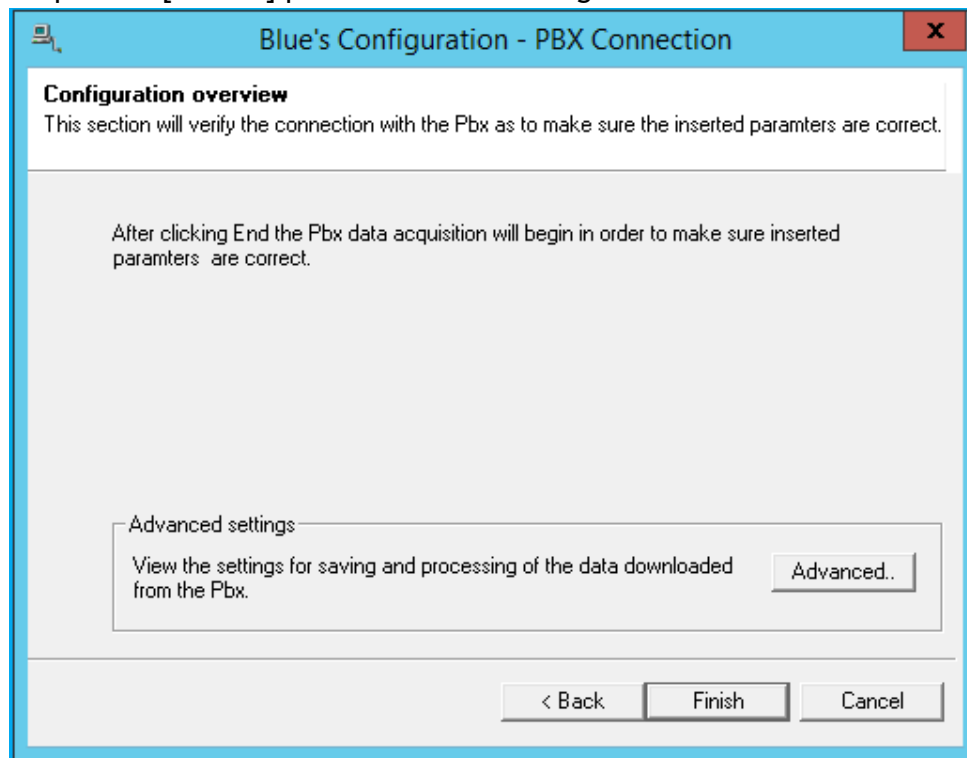

(Par défaut dans les installations actuelles ce type de connexion n'est pas disponible. Choisir éventuellement 'Asterisk for Wildix').

4. La configuration demande un répertoire où les CDRs seront déposés par le PBX. Cliquer sur la case [...] pour choisir le parcours et le fichier.

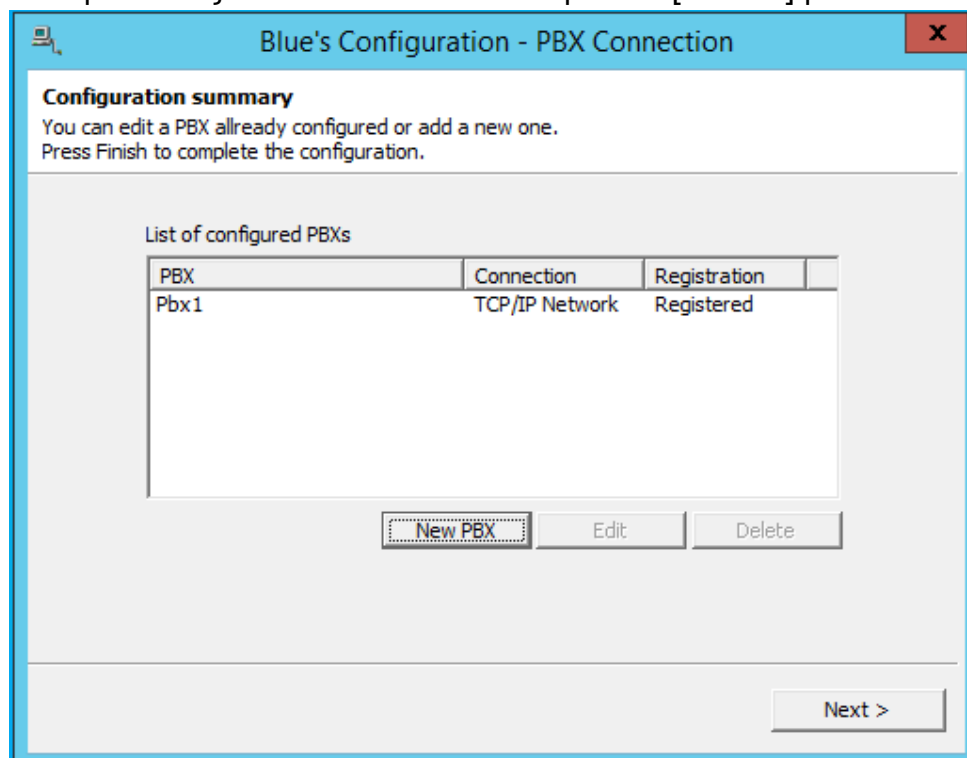

Entrez in * pour voir tous les fichiers si le fichier n'a pas l'extension .CSV

5. Cliquer sur [Finish] pour terminer la configuration.

6. Il est possible ajouter un autre PBX ou cliquer sur [Next >] pour continuer.

7. Configuration su premier SITE. En général rien à modifier ici.

The screenshot shows a window titled "Blue's setup wizard - PABX: Pbx1". The main heading is "Importing data" with the instruction "Please enter the site's name, the call file and the data import frequency." Below this, there are three fields: "Name of site:" with a text box containing "Pbx1"; "Import from:" with a text box containing "C:\Program Files (x86)\StonevoiceAS\Apps\BillyBlues\Engine" and a browse button "..."; and "Import every:" with a dropdown menu set to "Every second". At the bottom right, there are "Next >" and "Cancel" buttons.

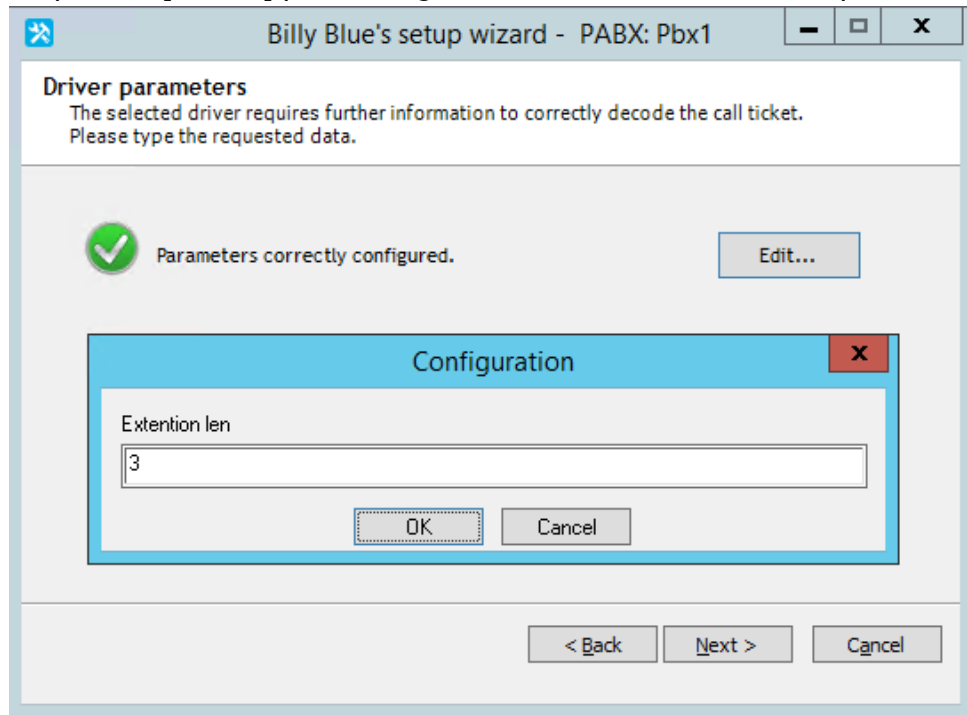

8. Choisir le Driver pour Wildix et cliquer sur [Next >]

The screenshot shows a window titled "Billy Blue's setup wizard - PABX: Pbx1". The main heading is "Driver" with the instruction "Select the driver that Blue's Miner should use to correctly interpret the call tickets provided by the PBX." There are two radio button options: "Use the driver found by the automatic search" (selected) and "Select the driver manually". Under the selected option, there is a "Driver found:" text box containing "Wildix (Wildix New (PRO))", a "Details" button, and a blue link "Find driver automatically". Under the "Select the driver manually" option, there is a "PBX brand:" list box with "VIERLING", "Voismart", "VT Telematica", and "Wildix" (selected). To the right, there is a "Model:" text box containing "Wildix New (PRO)" and an "Import" button. At the bottom, there are "< Back", "Next >", and "Cancel" buttons.

(Dans les installations Standard ce driver n'est pas disponible sous ce nom. Copier le driver

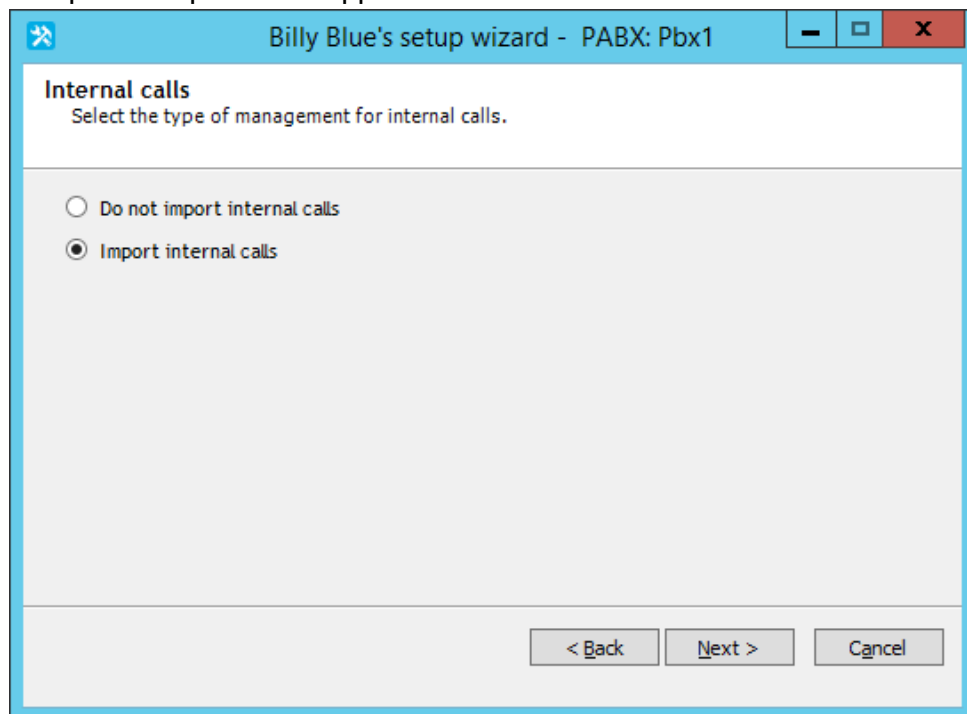

disponible à ce lien <https://db.tt/etYrlFwesm> dans le répertoire:
C:\Program Files (x86)\StonevoiceAS\Apps\BillyBlues\Engine\driver

9. Cliquer sur [Edit...] pour configurer le numéro de chiffres des postes.

Par défaut, 3 chiffres.

10. Indiquer si importer les appels internes ou seulement les externes.

11. Configurer le Pays et la zone locale su SITE pour bien calculer le coût des appels.

The screenshot shows a window titled "Billy Blue's setup wizard - PABX: Pbx1". The main heading is "Country and area" with a subtext: "Please specify where the site is located. This information will be used to correctly determine the cost of calls." The form contains the following fields:

- Country: A dropdown menu with "France" selected.
- Local area: A dropdown menu with "Paris (01)" selected.
- Time zone and daylight savings time: A dropdown menu with "(GMT +01:00) CET Central European (Franc" selected.
- Country currency: A dropdown menu with "Euro (€)" selected.
- Tax name: A text input field containing "TVA".
- Rate (%): A text input field containing "19.6".

At the bottom, there are three buttons: "< Back", "Next >", and "Cancel".

12. Choisir le tarif parmi les disponibles.

The screenshot shows a window titled "Billy Blue's setup wizard - PABX: Pbx1". The main heading is "Telephone tariffs" with a subtext: "Please select the telephone tariffs used by the site." The form is divided into two main sections:

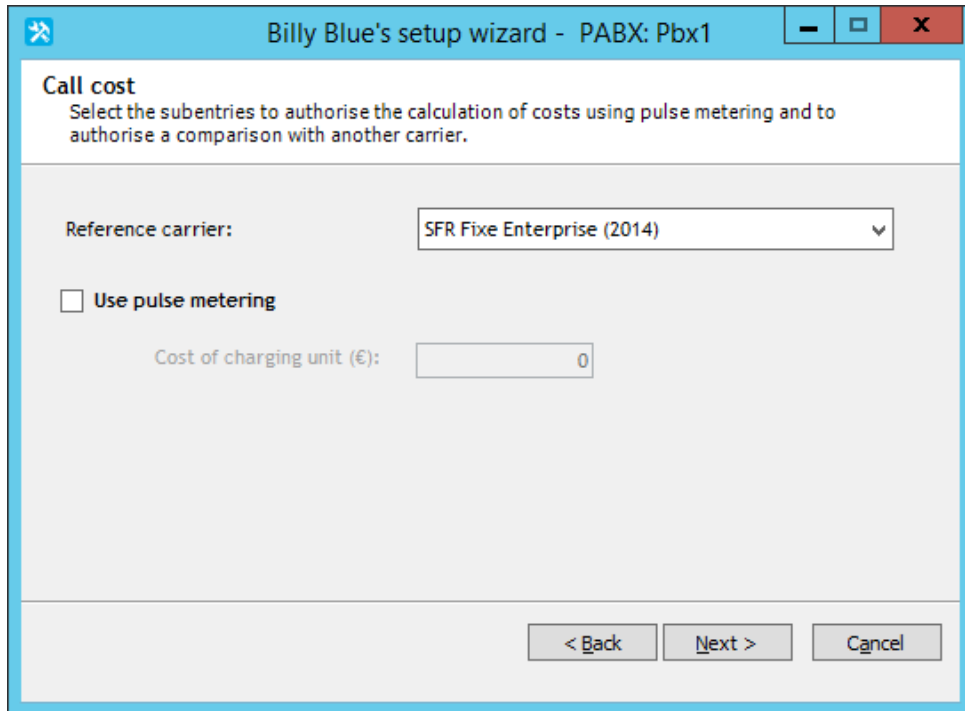

- Available tariffs:** A list box containing four items: "Bouygues Entreprises (2014)", "Orange Contract Pro (2013)", "Orange Enterprise Optima (2014)", and "SFR Fixe Enterprise (2014)".
- Tariffs to be used:** A list box containing one item: "Orange Contract Pro (2014)".

Between the two list boxes are three buttons: ">", "<", and "<<".

Below the "Available tariffs" list box, there are four links: "New", "Import", "Modify", and "Duplicate".

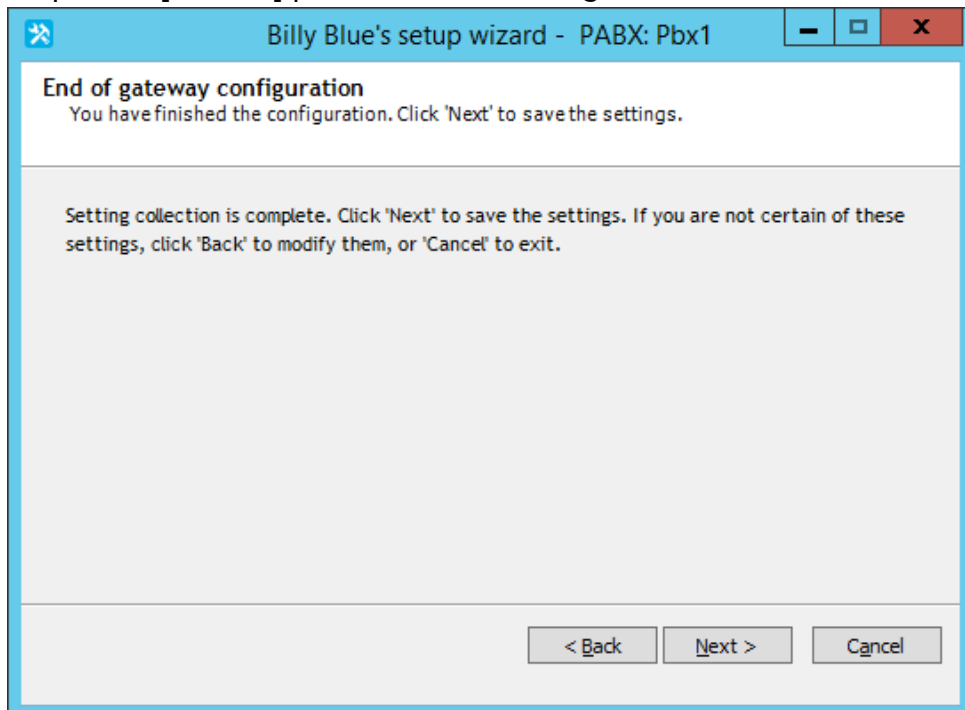

At the bottom, there are three buttons: "< Back", "Next >", and "Cancel".

13. Il est possible choisir un tarif de référence pour effectuer des confrontations à partir de certains rapports.

The screenshot shows a window titled "Billy Blue's setup wizard - PABX: Pbx1". The main heading is "Call cost". Below it, the text reads: "Select the subentries to authorise the calculation of costs using pulse metering and to authorise a comparison with another carrier." There is a dropdown menu for "Reference carrier:" with "SFR Fixe Enterprise (2014)" selected. Below this is a checkbox labeled "Use pulse metering" which is currently unchecked. Underneath the checkbox is a text input field for "Cost of charging unit (€):" with the value "0". At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

14. Cliquer sur [Next >] pour terminer la configuration de ce SITE.

The screenshot shows a window titled "Billy Blue's setup wizard - PABX: Pbx1". The main heading is "End of gateway configuration". Below it, the text reads: "You have finished the configuration. Click 'Next' to save the settings." There is a larger block of text: "Setting collection is complete. Click 'Next' to save the settings. If you are not certain of these settings, click 'Back' to modify them, or 'Cancel' to exit." At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

15. Cliquer sur [Next >] pour terminer la configuration ou en cas de plus SITES configurer les autres en cliquant sur [Configure].

The screenshot shows the 'Blue's setup wizard' window with the 'Site setup' tab selected. The window title is 'Blue's setup wizard'. Below the title bar, it says 'Site setup' and 'This section lets you access the setup for each individual site'. There is a 'List of sites:' section with a table. The table has columns: Enabled, Site, Country, Area, PBX, Import, and File. The first row is checked in the 'Enabled' column and contains the following data: Site: Pbx1, Country: France, Area: Paris, PBX: Wildix New ..., Import: Hourly, File: C:\Program File... (truncated). Below the table are 'Configure' and 'Delete' buttons. At the bottom right are 'Next >' and 'Cancel' buttons. The total number of sites is indicated as 1.

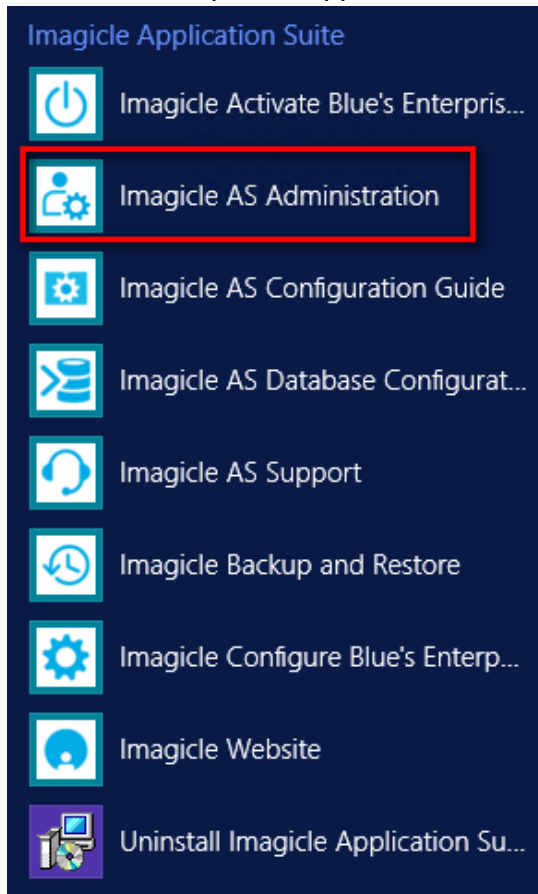

Enabled	Site	Country	Area	PBX	Import	File
<input checked="" type="checkbox"/>	Pbx1	France	Paris	Wildix New ...	Hourly	C:\Program File...
<input type="checkbox"/>						
<input type="checkbox"/>						
<input type="checkbox"/>						
<input type="checkbox"/>						
<input type="checkbox"/>						
<input type="checkbox"/>						

The screenshot shows the 'Blue's setup wizard' window with the 'Setup wizard complete' screen. The window title is 'Blue's setup wizard'. On the left, there is a blue sidebar with the 'imagicle Accounting & Billing' logo and a bar chart. The main area contains the text 'Setup wizard complete' and 'Billy Blue's setup wizard is complete. Click 'End' to exit.' At the bottom right are '< Back', 'End', and 'Cancel' buttons.

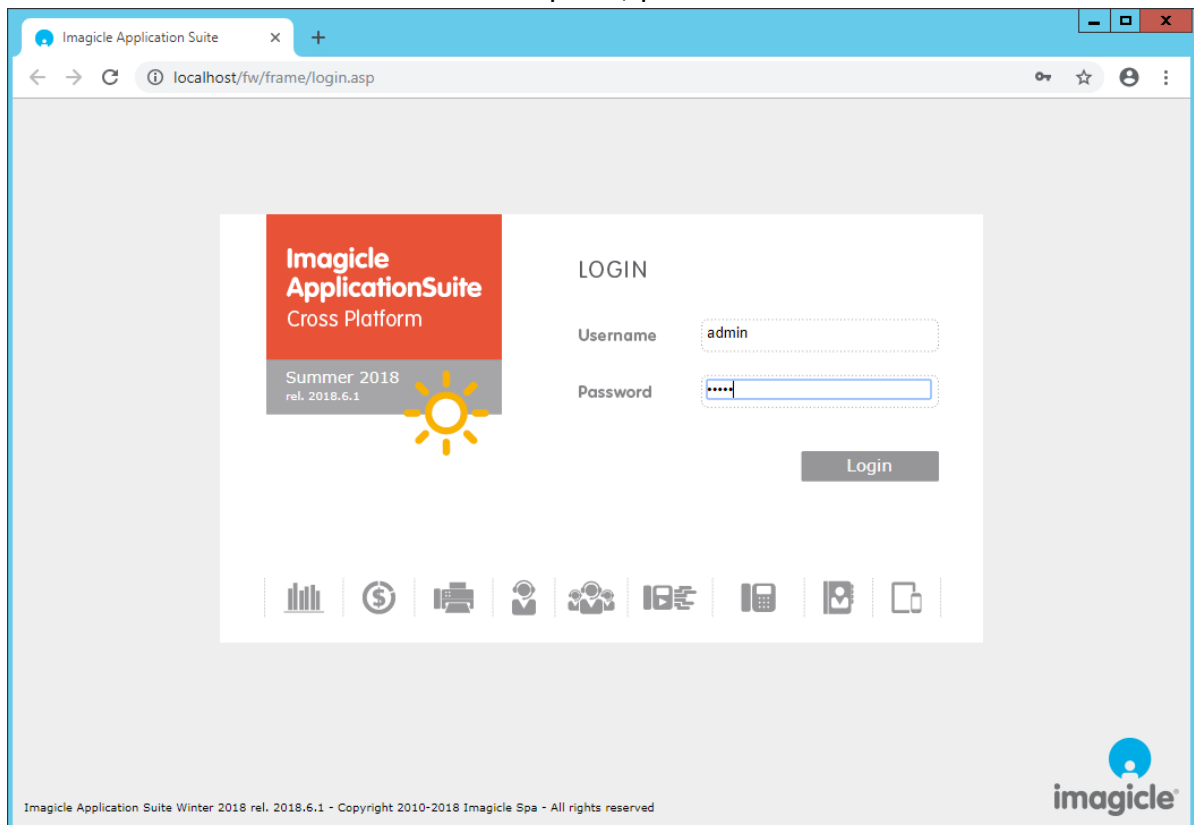

16. Il peut falloir quelques minutes pour la mise à jour des données.

The screenshot shows a dialog box titled 'Configuration Wizard (Ne répond pas)'. It contains the text 'Running guided configuration wizard...' and a green progress bar.

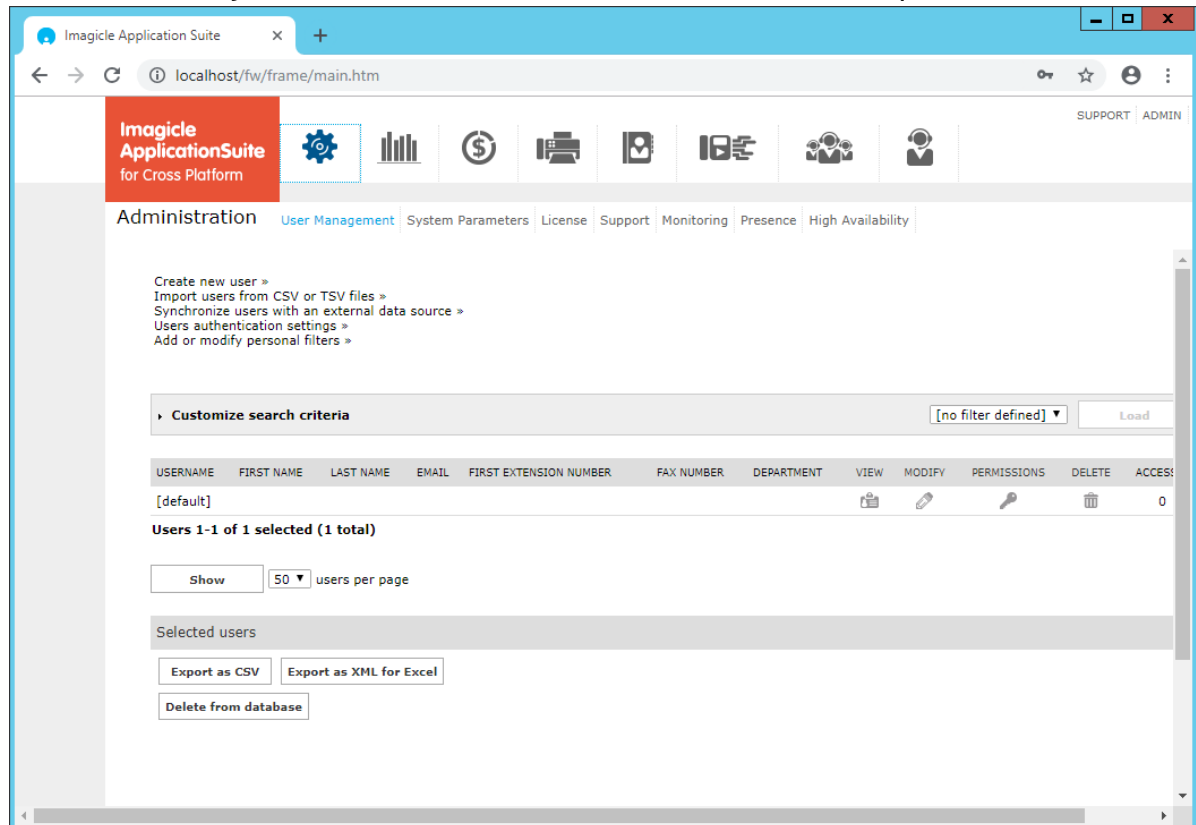

17. Lancer la suite par les applications > Imagicle AS Administration.

18. Entrer avec le nom utilisateur et mot de passe, par défaut : admin / admin .

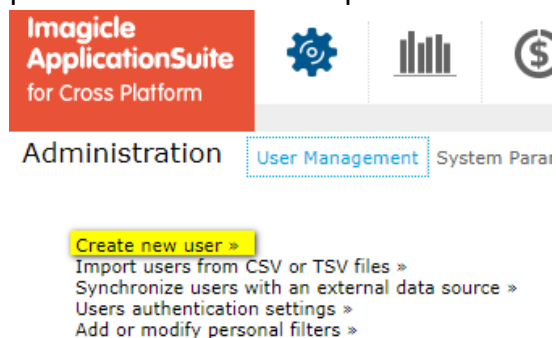

19. Premièrement, ajouter la liste des users associés à leur numéro de poste.

Il est possible synchroniser la suite à une source AD autrement il est nécessaire créer manuellement tous les utilisateurs.

20. En cas où vous préférez les créer manuellement il est convenable d'en ajouter un premier manuellement à partir du lien 'Create new user>>'

21. Entrer les champs nécessaires et autres infos de l'utilisateur si vous les connaissez.

37. Configuration des paramètre SMTP pour recevoir les rapports planifiés ou Alertes.

The first screenshot shows the 'System Parameters' page in the Imagicle Application Suite. The page has a top navigation bar with the logo and a menu with 'Administration', 'User Management', 'System Parameters' (selected), 'License', 'Support', 'Monitoring', 'Presence', and 'High Availability'. Below the menu, there is a 'System parameters' section with four items: 'IP Telephony system parameters', 'SMTP parameters', 'Numbering plan parameters', and 'Users authentication settings'. Each item has a 'Set »' button to its right.

The second screenshot shows the 'SMTP Parameters' configuration page. It has a 'Back to system parameters' link at the top. The 'SMTP Parameters' section contains the following fields and controls:

- Enable Outgoing Mail:** A checkbox that is currently unchecked.
- Email From Address:** A text input field.
- Server Name:** A text input field.
- Server Port:** A text input field containing the value '25'.
- Use Authentication:** A checkbox that is currently unchecked.
- Username:** A text input field containing the value 'admin'.
- Password:** A password input field with masked characters (dots).

At the bottom right of the form, there are two buttons: 'Update Parameters' and 'Test'.
